

Designer's Digest and Workroom Manual

Not sure which Supplements you have? Here is a guide to help you!

- Turn to Part 1 of your book and see if you have page 1B-115. If you do not have this page, you do not have **Supplement 1**.
- If you only have one book then you don't have **Supplement 2**. The second Supplement came with an additional binder, which separates the Design portion from the Workroom portion. These binders are gold in color.
- Look in your second book (Workroom Manual) and see if you have Part 7. If so, you have **Supplement 3**.
- Turn to Part 3 of the second book (Workroom Manual) and see if you have page 3J-1. If so, you have **Supplement 4**.
- Turn to Part 1 of the first book (Designer's Digest) and see if you have page 1B-177. If so, you have **Supplement 5**.
- Are your binders gold or black? If they are gold you do not have **Supplement 6**. This Supplement has replacement binders that are black. You should also have a cd with a purple label.
- Turn to Part 1 of the first book (Designer's Digest) and see if you have page 1B-219. If so, you have **Supplement 7**. You should have a cd with a yellow label.
- Turn to Part 1 of the first book (Designer's Digest) and see if you have page 1B-263. If so, you have **Supplement 8**.

Remember, the Supplements do not stand alone. They must be placed in the book in numerical order.
